

RATES FOR EXCESS BAGGAGE

COST OVERVIEW FOR SWISS FLIGHTS

–

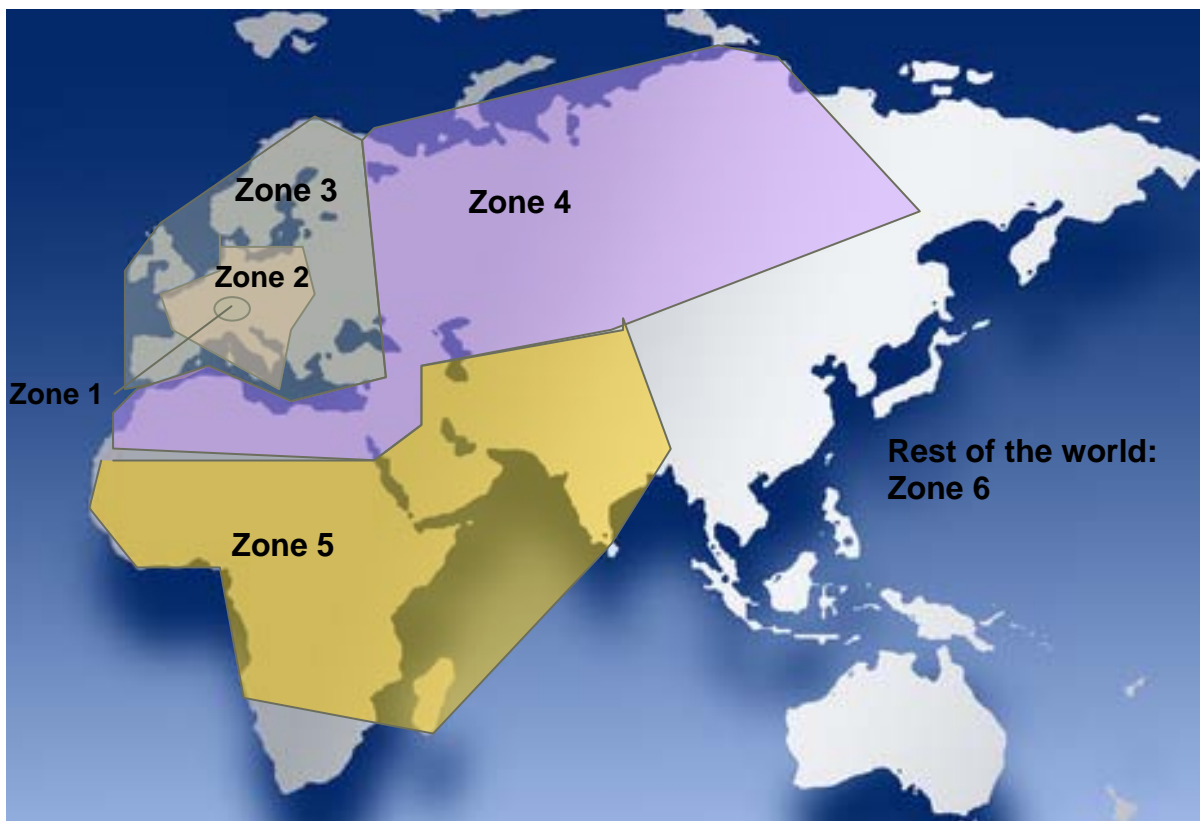

Rates for excess baggage are subject to various factors. If you fly to the USA or Canada, or to other destinations before 28.10, the information you need is available here: [Reservation service](#).

For all other flights after 28.10, the rates are determined by:

- the zones in which your departure airport and destination airport are located
- the corresponding rate per kilo of excess baggage
- how many kilos of baggage are categorized as excess

Explanation

1. The map below shows a rough demarcation of the baggage zones. In the tables below you can find the individual SWISS destinations within these zones. Find the zones for your departure airport and destination airport

Zone designation for excess baggage regulations

Zone 1

Switzerland	Basel, Lugano, Geneva, Zurich
-------------	-------------------------------

Zone 2
